Dear Fellow Nurseryman:

Sunny Border is located between Meriden and New Britain just a short ride from the Wilbur Cross Highway. We are always happy to have you visit our place when you are in this vicinity.

As we are situated in an industrial area it is becoming increasingly difficult to obtain trained employees. Under these circumstances it is difficult for us to prepare orders while you wait. If you give us a few days notice we can always have your order ready and in this way save your time as well as ours.

If you are interested in German Iris we have more than 15000 plants in our fields. They start to bloom around the first of June and usually continue two to three weeks.

Our Daylilies are also exceptional and most varieties are in bloom from the middle of July to the first of August. At this time both the early and the later varieties should be at their best.

Sincerely yours,

ROBERT BENNERUP

## HARDY CHRYSANTHEMUMS

Sunny Border high quality, well established plants.

In 2" bands. (Equivalent of a 3" pot.)

These are propagated from clean healthy plants and for extra precaution are treated with Sodium Selenate and given light during February, March and April to prevent early budding and to assure you of the best in Chrysanthemums.

10 of any one variety \$2.50

100 of any one variety \$20.00

## CUSHION MUMS

Chiquita—yellow button

Early Gold—Bright yellow, early large flowering

Gladness—A new cushion with well formed flowers, beautiful China-Rose

Golden Carpet—Golden yellow pompon

Joan Helen—Crimson-Purple

Major Cushion—Large salmon-pink

Nye's Favorite—Large flowering lavender, extremely early

Pepita—White button

Red Cloud—Vivid red, 3½ in.

Red Cushion—Red-orange

Yellow Supreme—Bright yellow

## THREE NEW OUTSTANDING MUMS—\$.50 each

Terrific new varieties from Canada. Enormous flowers and strong stems. These are something really new in chrysanthemums.

Evangeline—White with a slight pink flush. 2 to 3 feet tall.

Dauntless—Lively shade of bronze. 2 to 3 feet tall.

Charles E. Morris—Rich yellow. 2 to 2½ feet tall.

Although they are high priced they are well worth it. The color and size of the blooms and the free flowering habit are not equalled by any chrysanthemum we have ever seen. The flowers are from 4 to 6 inches across and can be disbudded for exhibition purposes.

Our supply of these superior varieties is very limited and we suggest you send your order as soon as possible.

## FIVE NEW VARIETIES AT \$3.00 for ten and \$25.00 per 100.

Alex Cummings—4" flower, opens pure cerise and matures to rose.

Golden Cheer—A unique variety with the flowers the same size as Charles Nye but a bright golden yellow. The really exciting thing about this variety is that the flowers seem to be absolutely frost proof. Even after a severe freeze when all the other chrysanthemums are gone these blossoms are still unblemished.

Jubilee—Sturdy 18" grower, a mass of glowing red from October 1. 1½" pompons of a clear deep red.

Spindrift—Lovely double 3" white. Slightly cactus petalage. Stocky 18 to 24" plants.

Fascination—A profusion of 4" blooms of stunning silvery-lavender pink with deeper center. Late September on. A terrific seller in bloom. First rate for cutting and easy to handle.

# SUNNY BORDER, INC.
